

Additional file 6: Assignment of the individuals to gene pools at a probability threshold of 80% with increasing values of K. See additional file 5 for the corresponding spatial distribution of gene pools and for the distribution of assignment probability of individuals to gene pools.

K =	Non-assigned individuals	Red dots	Blue dots	Violet dots	Green dots
2	10	236	402		
3	12	194	395	47	
4	102	156	264	42	84
5	419	130	60	39
