

Table 1. Number of genes (probe sets) differentially expressed in rice and barley

	IR29	Os _{common}	FL478	GP	Hv _{common}	MT
up-reg.	652	58	239	624	250	436
down-reg.	443	60	337	444	179	337

Differentially expressed genes were identified using 10 % false discovery rate (FDR) cut-off
