Visualize TEs in the context of the soybean genetic map

Clicking on a chromosome or linkage group below will show the genetic map with each class of transposable element in a separate column. The Feature Options at the bottom of the page determines which TE classes are shown. Similarly the Display Options can be used to alter the map's size and other display attributes.

Linkage Group	A1	A2	B1	B2	C1	C2	D1a	D1b	D2	E	F	G	H	I	J	K	L	M	N	O
