

Legend:

A Distribution of tRNA genes ■ and tRNA pseudogenes ■ on a logarithmic scale

B Fraction of tDNAs located in:
genomic clusters homogeneous clusters // heterogeneous clusters XX not located in clusters.

C Fraction of homogeneous pairs:
pairs tRNA genes XX $\rightarrow\rightarrow$, \\ $\rightarrow\leftarrow$, ≡ $\longleftrightarrow$ pairs tRNA pseudogenes XX $\rightarrow\rightarrow$, \\ $\rightarrow\leftarrow$, ≡ $\longleftrightarrow$

C' Fraction of Heterogeneous pairs: XX $\rightarrow\rightarrow$, \\ $\rightarrow\leftarrow$, ≡ $\longleftrightarrow$

D, D' analogous to **C, C'** separately for tRNA genes

E, E' analogous to **C, C'** separately for tRNA pseudogenes
