

LEGEND

Color codes for QTL :

- (P): QTL for Physical properties
- (C): QTL for Chemical composition
- (A): QTL for Anatomical properties
- (M): QTL for Mechanical properties
- (T): QTL for Technological properties
- (G): QTL for growth

Codominant markers are in bold, candidate genes are underlined. The "position range" of a QTL (full bars) as the range between the position calculated from the original dataset (P) and the position calculated from bootstrap analysis (PBS) . The confidence interval (95%) of the QTL position was calculated relative to the PBS (line).
