

T : End splits

T : End splits

C : - Extractive content

- Lignin content

- Monomeric composition: S, G

- Polyphenol content

- Flavonol content (flavan-3-ols and condensed tannins)

A : - Fibre weighted length

- Fibre width

- Fibre curl index

- Fibre coarseness

T : - End splits

M : - Longitudinal growth strain

- Modulus of elasticity

P : - Pilodyn over bark

- Pilodyn under bark

- Microdensity
