

A. CFTR

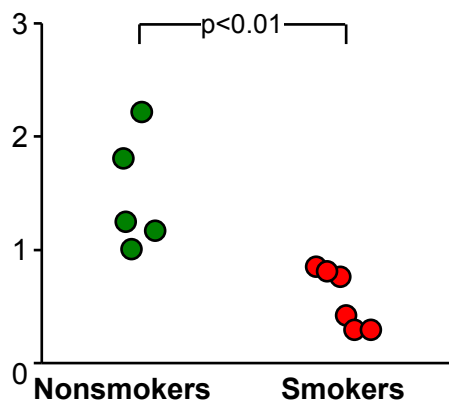

D. CNGB1 – cyclic nucleotide gated channel, beta 1

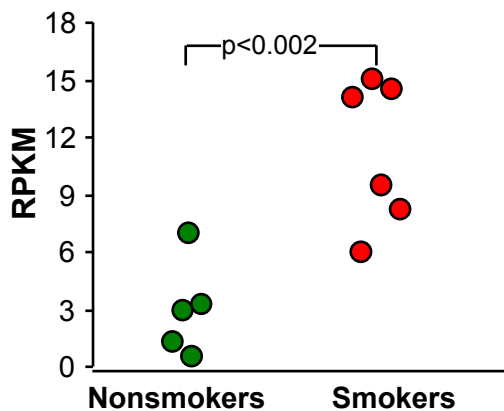

B. ABCC3 – ATP-binding cassette, sub-family C (CFTR/MRP), member 3

E. SLC13A2 – solute carrier family 13 (sodium dependent dicarboxylate transporter)

C. CACNG4 – L-type calcium channel, voltage-dependent, gamma subunit 4

F. KCNC4 – Potassium voltage-gated channel, Shaw-related subfamily, member 4
