

rapamycin  
 heatshock  
 MMS  
 alpha factor  
 sorbitol  
 uracil  
 sporulation  
 cell cycle  
 diauxic shift

Average LNS

- vacuolar transport
- ribonucleoprotein complex
- biogenesis and assembly
- cellular biosynthetic process
- biological regulation
- aspartate family amino
- acid metabolic process
- drug transport
- protein modification process
- ribonucleoprotein complex
- biogenesis and assembly
- microtubule nucleation
- translation, biosynthetic process
- cell development
- carboxylic acid metabolic process, phosphorylation
- response to stimulus
- cell cycle process
