

Databases

The diagram shows four purple cylindrical database icons. At the top, 'MLST' and 'Ensembl genome database' are connected by a double-headed arrow. Below them, 'Variations' has an arrow pointing to 'Genome sequence, Gene annotation', which in turn has an arrow pointing to 'Alignment, Gene family'. A double-headed arrow also connects 'Genome sequence, Gene annotation' and 'Ensembl genome database'. A dashed blue line is positioned above the 'Databases' label.

```
graph TD; MLST <--> Ensembl[Ensembl genome database]; Variations --> Genome[Genome sequence, Gene annotation]; Genome --> Alignment[Alignment, Gene family]; Genome <--> Ensembl;
```
