

Total number of genes with significant NAT levels:	1247 genes		
Location of downstream gene	same strand: 474 genes	opposite strand: 737 genes	no downstream gene: 36 genes
Positive correlation:	198 genes	275 genes	
No correlation:	196 genes	323 genes	
Negative correlation:	16 genes	50 genes	
Not enough data:	64 genes	89 genes
