

T-DNA integration event		No. of observations
1.	Two adjacent insertions - left border::right border	908
2.	Two independent insertions - left border	836
3.	Two adjacent insertions - right border::right border	422
4.	Two insertions nested - in left border	384
5.	Two adjacent insertions - left border::left border	88
6.	Three insertions - two nested within a third	58
7.	Two insertions with a replicated left border sequence	40
8.	Two insertions nested in Ti back-bone sequence	20
9.	Single imprecise insertion - left border	19
10.	Two inserts - nested inside the T-DNA sequence	15
