

Sample 1

Total attendees from 1st Jan 2010 to 31st Dec 2012 (**n=2187**)
Migrants-**1255 (57.4%)**, Non-migrants-**932(42.6%)**

Vitamin D levels not tested (**n=901**)
Migrants-**381 (42.3%)**, Non-migrants-**520(57.7%)**

Excluded

Vitamin D levels tested (**n=1286**)
Migrants-**874 (68.0%)**, Non-migrants-**412(32.0%)**

On Vitamin D treatment (**n=757**)

Vitamin D testing done after the commencement of Vit D supplements (**n=96**)

Excluded

Not on Vitamin D treatment (**n=529**)

Vitamin D testing done before the vit D supplements (**n=661**)

Total (**n=1190**)
Migrants-**800 (67.2%)**, Non-migrants-**390(32.8%)**

Sample 2

All the data required for the calculation of FRS[#] are not available (**n=802**)

Excluded

Availability of all the data required for the calculation of FRS (**n=388**)
Migrants-**241 (62.1%)**, Non-migrants-**147 (37.9%)**

The date difference between vitamin D test and Cholesterol test is more than 3 months (**n=24**)

Excluded

The date difference between vitamin D test and Cholesterol test is less than 3 months (**n=364**)
Migrants-**231(63.5%)**, Non-migrants-**133(36.5%)**

Sample 3

[#] FRS – Framingham Risk Score
