

We are interested in the angle at your knees (that is straight legs, bow-legged or knock-knees) as this may have relevance to the development of osteoarthritis. Please look at your knees **whilst standing** (preferably in front of a mirror) and tick the appropriate box to indicate the angle of your knees.

Most people will have similar angulations in their left and right knees, but in a few people these angulations may differ. We therefore would like you to score your knees separately.

A	B	C	D	E
Very bow legged	Bow legged	Normal	Knock-knee	Very knock-knee

Which picture best shows the **current** angle of **each** of your legs?

Right knee ► ☐A ☐B ☐C ☐D ☐E

Left knee ► ☐A ☐B ☐C ☐D ☐E
