

Organisational
challenges

- AOTs were not established as fast as planned
- Time for recruitment extended

Challenges
finding eligible
participants

- Not enough eligible patients in three AOTs
- Patients in three district teams also included

Challenges
having MHCPs
invite patients

- Some MHCPs were reluctant in inviting patients
- Clinicians were encouraged to prioritize the trial

Patients'
readiness to take
part in the GSD
trial

- 120 of 170 patients accepted to take part in the info meeting
- 101 of 120 patients accepted to take part in the trial
- 93 of 101 patients (92%) completed the trial
