

MRI Findings Linked to Low Back Pain

The diagram consists of two overlapping ovals. The top oval is yellow and contains findings linked to low back pain. The bottom oval is light blue and contains findings linked to radicular symptoms. The intersection of the two ovals is shaded a darker yellow-green and contains findings linked to both conditions.

Vertebral Endplate Changes

Annular Fissures

Facet Osteoarthritis

Disc Dessication

Disc Height Narrowing

Disc Bulging

MRI Findings Linked to Both

Spondylolisthesis

Disc protrusions

MRI Findings Linked to Radicular Symptoms

Central canal stenosis

Disc extrusions

Nerve root impingement
