

Table S2

Systematic reviews screened for eligible studies

n = 29

Arnold SR, Straus SE: Interventions to improve antibiotic prescribing practices in ambulatory care. <i>Cochrane Database Syst Rev</i> 2005, (4):CD003539.
Balas EA, Krishna S, Kretschmer RA, Cheek TR, Lobach DF, Boren SA: Computerized knowledge management in diabetes care. <i>Med Care</i> 2004, 42 :610-621.
Bennett JW, Glasziou PP: Computerised reminders and feedback in medication management: A systematic review of randomised controlled trials. <i>Med J Aust</i> 2003, 178 :217-222.
Bryan C, Boren SA: The use and effectiveness of electronic clinical decision support tools in the ambulatory/primary care setting: a systematic review of the literature. <i>Inform Prim Care</i> 2008, 16 :79-91.
Chatellier G, Colombet I, Degoulet P: An overview of the effect of computer-assisted management of anticoagulant therapy on the quality of anticoagulation. <i>Int J Med Inf</i> 1998, 49 :311-320.
Chatellier G, Colombet I, Degoulet P: Computer-adjusted dosage of anticoagulant therapy improves the quality of anticoagulation. <i>Medinfo</i> 1998, 9 Pt 2 :819-823.
Conroy S, Sweis D, Planner C, Yeung V, Collier J, Haines L, Wong IC: Interventions to reduce dosing errors in children: a systematic review of the literature. <i>Drug Saf</i> 2007, 30 :1111-1125.
Costa BM, Fitzgerald KJ, Jones KM, Dunning Am T: Effectiveness of IT-based diabetes management interventions: a review of the literature. <i>BMC Fam Pract</i> 2009, 10 :72.
Durieux P, Colombet I, Niès J, Walton RT, Rajeswaran A, Rége-Walther M, Harvey E, Burnand B: Computerized advice on drug dosage to improve prescribing practice. <i>Cochrane Database Syst Rev</i> 2008, (3):CD002894.
Eslami S, Abu-Hanna A, de Keizer NF: Evaluation of outpatient computerized physician medication order entry systems: a systematic review. <i>J Am Med Inform Assoc</i> 2007, 14 :400-406.
Eslami S, Abu-Hanna A, de Jonge E, de Keizer NF: Tight glycemic control and computerized decision-support systems: a systematic review. <i>Intensive Care Med</i> 2009, 35 :1505-1517.
Fitzmaurice DA, Hobbs FD, Delaney BC, Wilson S, McManus R: Review of computerized decision support systems for oral anticoagulation management. <i>Br J Haematol</i> 1998, 102 :907-909.
Garg AX, Adhikari NKJ, McDonald H, Rosas-Arellano MP, Devereaux PJ, Beyene J, Sam J, Haynes RB: Effects of computerized clinical decision support systems on practitioner performance and patient outcomes: A systematic review. <i>JAMA</i> 2005, 293 :1223-1238.
Hayward GL, Parnes AJ, Simon SR: Using health information technology to improve drug monitoring: a systematic review. <i>Pharmacoepidemiol Drug Saf</i> 2009, 18 :1232-1237.

Hider P: Electronic prescribing. A critical appraisal of the literature. <i>NZHTA Report</i> 2002, 5 (2).
Hunt TL, Haynes RB, Hanna SE, Smith K: Effects of computer-based clinical decision support systems on physician performance and patient outcomes: a systematic review. <i>JAMA</i> 1998, 280 :1339-1346.
Jamal A, McKenzie K, Clark M: The impact of health information technology on the quality of medical and health care: a systematic review. <i>HIM J</i> 2009, 38 :26-37.
Kastner M, Straus SE: Clinical Decision Support Tools for Osteoporosis Disease Management: A Systematic Review of Randomized Controlled Trials. <i>J Gen Intern Med</i> 2008, 23 :2095-2105.
Mitchell MD, Copelli F, Shawhughes L, Laskin M, Foght F, Gibson G, Young DS, Umscheid C, Williams K: <i>Point of care testing for monitoring anticoagulation therapy.</i> Philadelphia: Center for Evidence-based Practice (CEP); 2008.
Mollon B, Chong JJ, Holbrook AM, Sung M, Thabane L, Foster G: Features predicting the success of computerized decision support for prescribing: a systematic review of randomized controlled trials. <i>BMC Med Inf Decis Mak</i> 2009, 9 :11.
Montgomery AA, Fahey T: A systematic review of the use of computers in the management of hypertension. <i>J Epidemiol Community Health</i> 1998, 52 :520-525.
Pearson SA, Moxey A, Robertson J, Hains I, Williamson M, Reeve J, Newby D: Do computerised clinical decision support systems for prescribing change practice? A systematic review of the literature (1990-2007). <i>BMC Health Serv Res</i> 2009, 9 :154.
Schedlbauer A, Prasad V, Mulvaney C, Phansalkar S, Stanton W, Bates DW, Avery AJ: What evidence supports the use of computerized alerts and prompts to improve clinicians' prescribing behavior? <i>J Am Med Inform Assoc</i> 2009, 16 :531-538.
Shamliyan TA, Duval S, Du J, Kane RL: Just what the doctor ordered. Review of the evidence of the impact of computerized physician order entry system on medication errors. <i>Health Serv Res</i> 2008, 43 :32-53.
Sintchenko V, Magrabi F, Tipper S: Are we measuring the right end-points? Variables that affect the impact of computerised decision support on patient outcomes: A systematic review. <i>Med Inform Internet Med</i> 2007, 32 :225-240.
van der Sijs H, Aarts J, Vulto A, Berg M: Overriding of Drug Safety Alerts in Computerized Physician Order Entry. <i>J Am Med Inform Assoc</i> 2006, 13 :138-147.
Walton RT, Harvey E, Dovey S, Freemantle N: Computerised advice on drug dosage to improve prescribing practice. <i>Cochrane Database Syst Rev</i> 2001, (1):CD002894.
Wolfstadt JI, Gurwitz JH, Field TS, Lee M, Kalkar S, Wu W, Rochon PA: The effect of computerized physician order entry with clinical decision support on the rates of adverse drug events: a systematic review. <i>J Gen Intern Med</i> 2008, 23 :451-458.
Yourman L, Concato J, Agostini JV: Use of computer decision support interventions to improve medication prescribing in older adults: A systematic review. <i>Am J Geriatr Pharmacother</i> 2008, 6 :119-129.
