Introduction: My name is..... I am working for the Society for Family Health/The Yakubu Gowon Center. We are interviewing people here in [NAME OF CITY, TOWN OR SITE] in order to find out about certain behaviors that affect people's health in this environment.

Confidentiality and consent: I am going to ask you questions some of which may be very personal. Your answers are completely confidential. Your name will not be written on this form, and will never be used in connection with any of the information you tell me. You may need to know that this exercise is taking place all over the country. Your honest answers to these questions will help us better understand what people think, say and do about certain kinds of behaviours. The information collected from you and people like you will help the government to find solution to some health problems affecting people in this environment. We would greatly appreciate your help in responding to this survey. My supervisor may come back later to verify this information.
