

# Cervico-vaginal fluid Proteome

## Higher abundant proteins

### Characteristic

- Physiological function
- High % extracellular
- High % defence

### Non-characteristic

- E.g. shedding, plasma
- low % extracellular
- Low % defence

## Lower abundant proteins

### Characteristic

- Physiological function
- High % extracellular
- High % defence

### Non-characteristic

- E.g. cell lysis, sampling
- low % extracellular
- Low % defence

## Core proteome

- % defence ↑
- % EC ↑

## Variable proteome

- % defence ↓
- % EC ↓
