Proteins only in "Unreduced "

Proteins only in "Reduced "

Actin beta
 Afamin
 AMBP protein
 Apolipoprotein B-100
 Coagulation factor X
 Complement C1qA
 Complement C1s
 Complement C3 alpha
 Complement C8 beta
 Complement factor B
 Dermatotopontin
 EGF-containing fibulin-like extracellular matrix protein 1
 Glycosylphosphatidylinositol specific phospholipase D1
 Heparan sulfate proteoglycan 2
 Immunoglobulin alpha
 Inter-alpha globulin inhibitor H1 isoform 5
 Inter-alpha-trypsin inhibitor heavy chain H2
 Lipopolysaccharide binding protein
 Phospholipase A1 member A variant
 Plasma glutathione peroxidase, plasma GSHPx
 Porcine inhibitor of carbonic anhydrase
 Protein C inhibitor
 Semaphorin-4D
 Small inducible cytokine A16
 Thrombospondin-1

Angiotensinogen
 Annexin I
 Apolipoprotein C-II
 Carboxypeptidase N polypeptide 1
 CD14 antigen
 Complement C1r
 Complement C3 beta
 Complement C4 alpha
 Complement C8
 Complement factor properdin
 Extracellular matrix protein 1
 Extracellular protein
 Immunoglobulin gamma 3
 Inhibin precursor alpha
 Inter-alpha globulin inhibitor H2
 Makorin-2
 Pigment epithelium-derived factor
 Proline-rich protein
 Protein C (inactivator of coagulation factors Va and VIIIa)
 Protein kinase for splicing component
 Protein Z-dependent protease inhibitor precursor
 Receptor accessory protein 1
 Serine protease
 Serine proteinase inhibitor member 1
