

ap CR 816399

This is an anteroposterior (AP) radiograph of a right equine lower limb. The image shows the distal radius and ulna, the carpal bones, and the metacarpals and phalanges of the foot. The bones are well-defined against a dark background. There is a small white rectangular marker on the ulna. The text 'ap CR 816399' is printed in the upper right area of the image.
