

Sulfur Metabolism

- *Salmonella Typhimurim* LT2
- 1270 genes, 2200 internal reactions, 1119 metabolites
- *In silico* LB

- Protein Complex
- Predicted Synthetic Lethal
- ◇ Essential in M9/glc
- Human homolog
- black font** - E.C.Activity in Humans
- blue font** - No E.C.Activity in Humans
- Essential for Virulence
- Functional Homolog Pair
- Involved in Sulfur Metabolism
- No Inhibitor in BRENDA
- Inhibitor in BRENDA
- Inhibitor in BRENDA and Tested on *Salmonella Typhimurium*
