

Proceed if you answer "Yes" below

Question A:

Is the record a guideline, recommendation or policy document aimed at health service providers/commissioners/managers, or does the record include a clearly stated recommendation for medical device procurement within low and middle income settings?

OR

Question B:

Does the record highlight any clearly stated issues or factors relevant to procurement or device prioritisation for low- or middle-income settings?

Exclude document if you answer "No" above
(to both questions A and B)

Proceed if you answer "Yes" below

Question C:

Is a class of medical devices or medical equipment generally the subject of the record?

(I.e. is the record focusing on more than one device?)

Exclude document if you answer "No" above

Include document if you answer "Yes" below

Question D:

Does the record consider issues *beyond* medical device regulation/regulatory policy -- i.e. is the record not restricted to medical device regulation?

Exclude document if you answer "No" above
