

```
Mutatest (int i, int j, int k){  
    int ret = 0;  
    if ( i > j )  
        if ( j < k )  
            if ( i < k )  
                }  
}
```

Original program

```
Mutatest (int i, int j, int k){  
    int ret = 0;  
    if (RelationalGT(i, j, 1))  
        if (RelationalLT(j, k, 8))  
            if(RelationalL(i, k,15))  
                }  
}
```
