

Must stop washing now: Cleanie,
you're rescheduled at 9pm!
Uncle Oven, switch on at 150°C!
Patty, A/C 25°C in living room!

oh, and Jeannie
is coming out of
school.. A/C in
her room too!

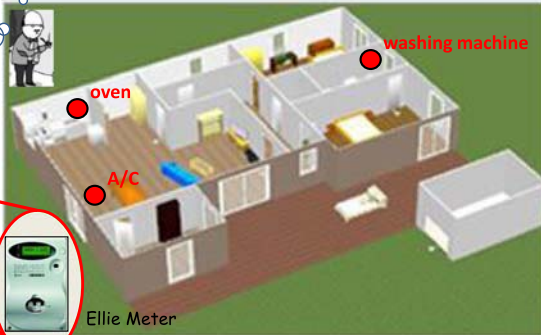

Meanwhile, at home..

But I'll take
an eye on Ellie
Meter: if
consumption
goes over the
threshold,
must tell Patty
to switch off
for a while.
