

Manuscript title:

Habitat development and species arrival drive succession of the benthic invertebrate community in restored urban streams

List of Authors:

Svenja M. Gillmann, Daniel Hering, Armin W. Lorenz

Journal name:

Environmental Sciences Europe

Appendix S2:

Figure S1. NMDS of log-transformed community data per sampling site, sampling years connected. Time since restoration was added as an overlay (red arrow).

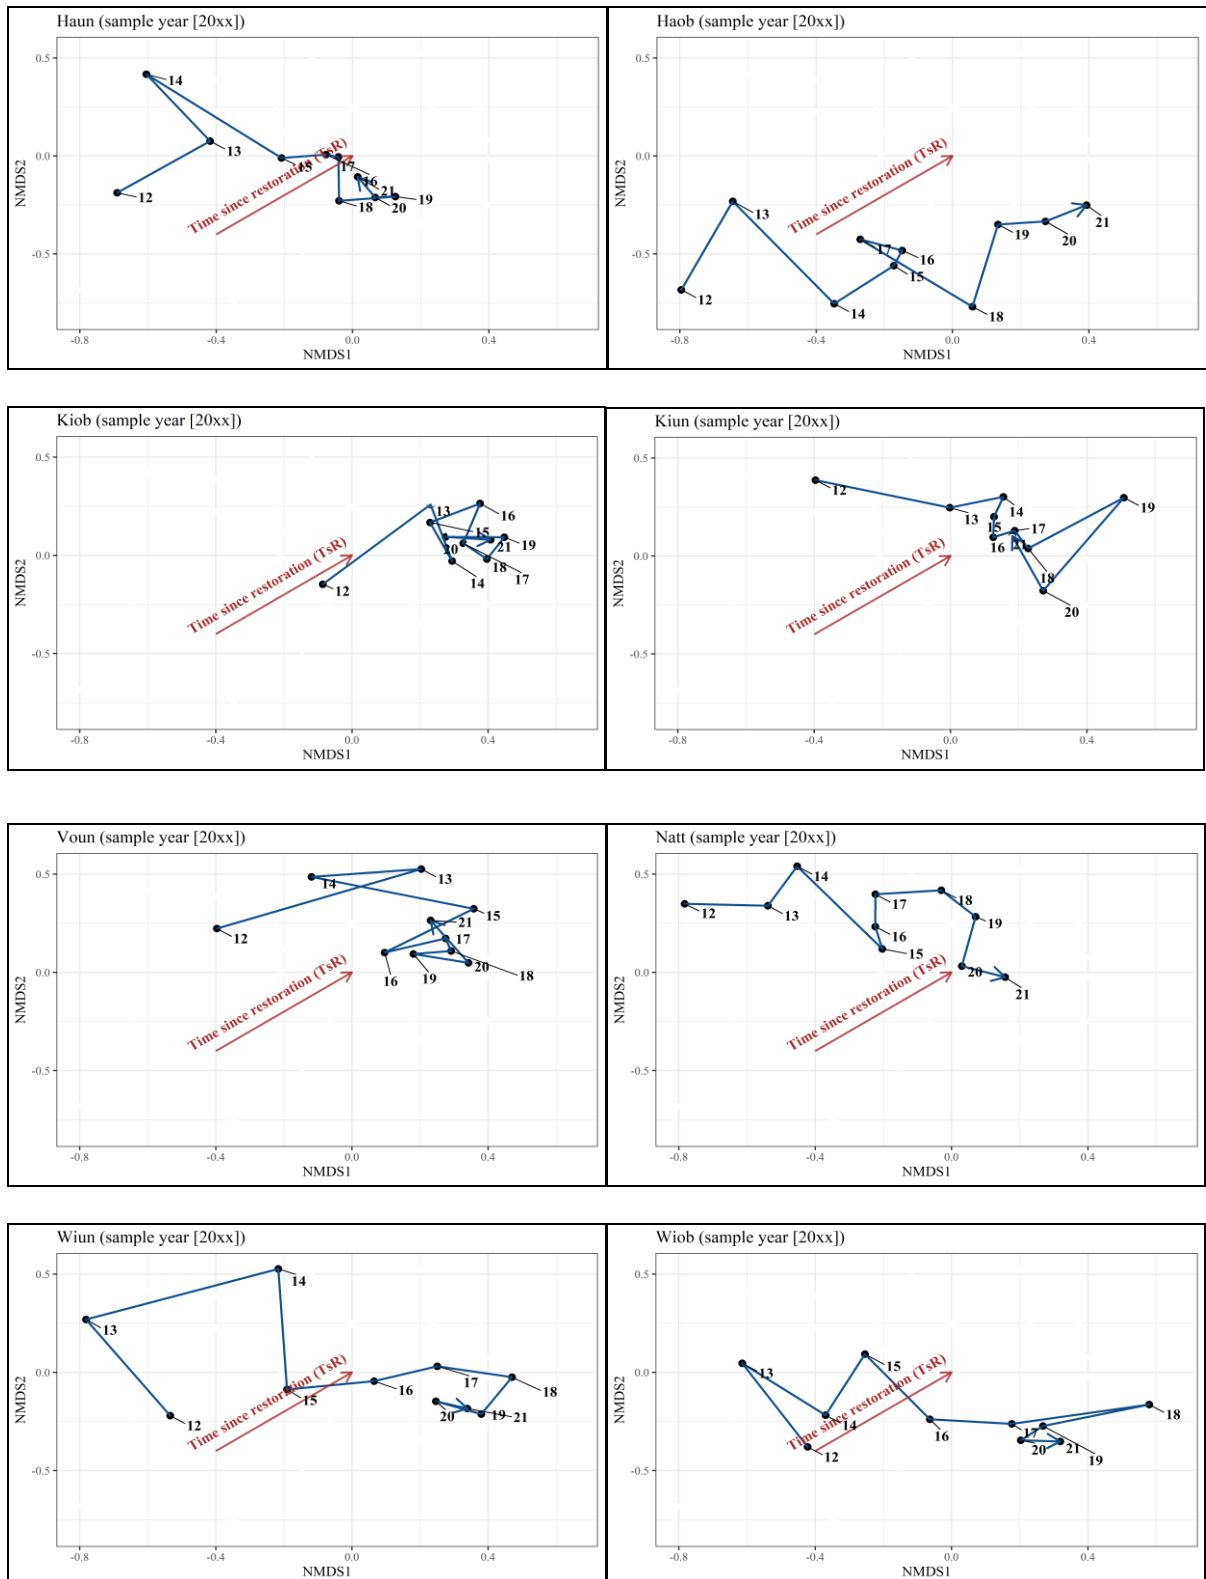

Figure S2. RDA of log-transformed community data per sampling site. Site Ids are shown

above each graph. The numbers depict the sampling year, e.g. 12 = 2012.
