

Forced Isolation by Invisible Barriers:
International Survey on the Effects of Fragrances on the Quality of Life
 -Supplementary material –

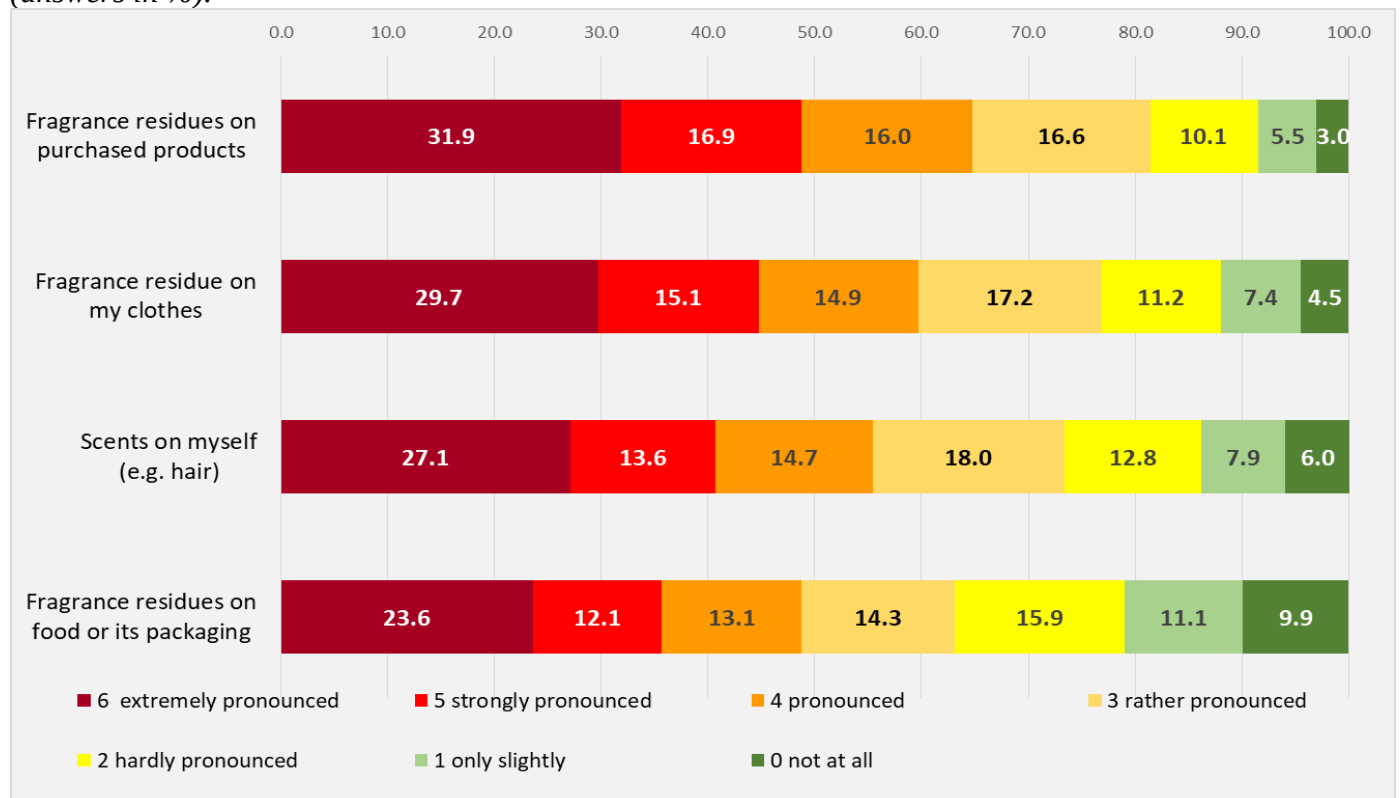

Supplement 3:

Title: Assessment and effects of second-hand fragrances

- a) Intensity of affection by second-hand fragrances
- b) Strategies to cope with second-hand fragrances

Legend:

a) Participants rated the extent to which they were affected by second-hand fragrances for four situations (answers in %).

b) Almost all participants (99.84%) also answered to the subsequent facultative question about their strategies how to cope with second-hand fragrances (multiple choice question with 11 answer options, multiple answers were possible, answers in %). Participants were able to provide additional information, details for countries with > 50 participants can be found in the separate country reports.
