

A**B**

Supplemental Figure 1: Time course of restoration of VEGFR2 expression.

A) Western blot of BAEC treated with serum free media containing 5 ng/ml TGF- β 1 for 24 hours, followed by recovery in serum free medium lacking TGF- β 1. Samples were collected after 0, 24, 48 and 72 hours recovery. Control culture (C) was treated with serum free medium lacking TGF- β 1 for 24 hours. **B)** Densitometry of western blots showing significant recovery of VEGFR2 expression by 48 hours post TGF- β 1 treatment. * p < 0.001; N = 2.
