Supplemental Figure 1: Switch distance pairwise comparison bar plots.

This figure consists of 12 sub-figures on 12 pages. These 12 sub-figures are for the following 12 different switch distance metrics: blk.w.0sw, blk.w.NAsw, blk.w.sw, snv.in.blk.w.0sw, snv.in.blk.w.NAsw, snv.in.blk.w.sw, snv.per.blk.w.0sw, snv.per.blk.w.NAsw, snv.per.blk.w.sw, total.sw, snv.by.sw, and sw.per.blk. In each sub-figure, the top panel is for the hg19 data with 3 sequencing coverage or depth (DP) levels (DP1, DP15, DP30), and the bottom panel is for the hg38 data with 3 depth levels (DP1, DP15, DP30).
