

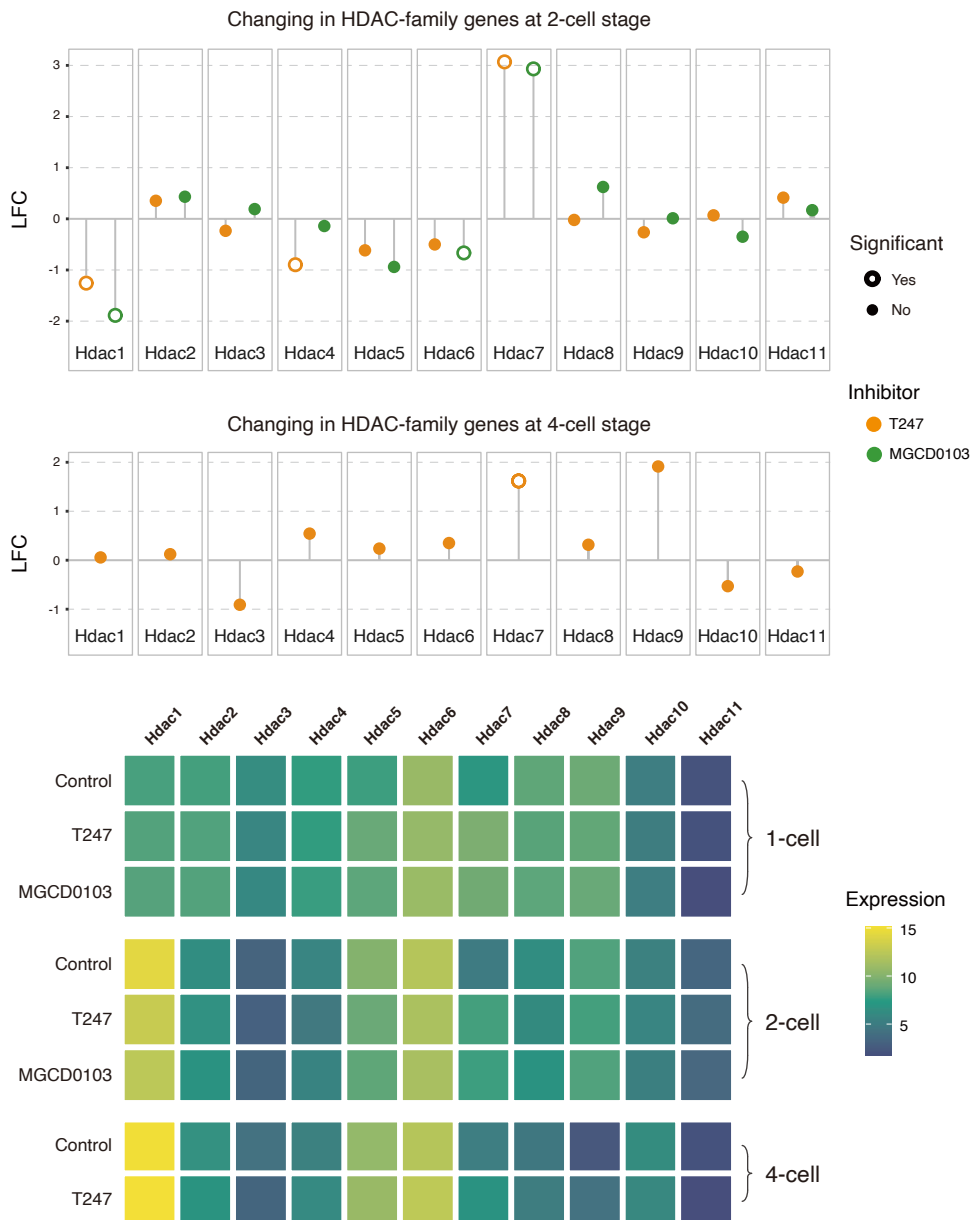

Fig. S3. Expression of HDAC-family genes after HDACi treatment. The lollipop plots above the figure show differential expression results of HDAC-family genes after HDACi treatment at 2-cell and 4-cell stage using the same display approach as in figure 2f. The heatmap below the figure shows the absolute expression of HDAC-family genes after HDACi treatment at the 1-cell, 2-cell, and 4-cell stages.
