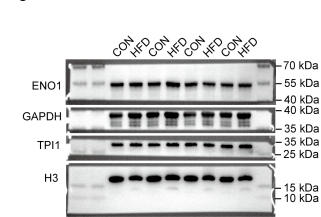

Figure 9H

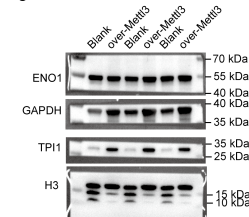

Figure 2. Significant Increase of Mettl3 in MASLD.
(D) Western blotting and quantitative analysis of Mettl3 protein in the MASLD mouse model.
Figure 6. Overexpression of Mettl3 alters the proteome in the liver.
(A) Western blotting and quantitative analysis of Mettl3 protein in AML12 cells transfected with overexpressing Mettl3 lentivirus.
Figure 9. Core node proteins regulated by Mettl3 in MASLD.
(E) Western blotting of the protein expression levels between control and HFD group.
(H) Western blotting of the protein expression levels between blank and over-Mettl3 group.
