

Supplementary Table 11. Statistics of genes, transcripts and exons.

Statistics	Number/Length
Number of genes	11623
Total genic length	24512809
Mean gene length	2108
Number of transcripts	12884
Transcripts per gene	1.1
Total transcript length	27245891
Mean transcript length	2114
Number of exons	36784
Exons per transcript	2.9
Mean exon length	740
Number of coding exons	34842
Number of introns	23900
Mean intron length	95
Total cds length	17862074
Mean CDS length	1386
