

Supplementary Figure.1.

Gating method for Dendritic Cell subsets

Supplementary Figure 1.

Gating method for DC subsets (A) An illustrative flow cytometry plot from convalescent COVID-19 individual showing the gating method for plasmacytoid (pDC) and myeloid DCs (mDC) Plasmacytoid DC were classified as (Lin- HLA-DR+ CD123+) and myeloid DCs as (Lin- HLA-DR+ CD11c+) classified as groups based on days since RT-PCR confirmation.
