

Figure S1 Three kinds of plots for the causal relationship between IMID and periodontal disease. When causal effects of periodontal disease (GLIDE) to IMID (FinnGen); A, scatter plot of SLE; B, funnel plot of SLE; C, leave-one-out plot of SLE. When causal effects of periodontal disease (UKB) to IMID (FinnGen); D, scatter plot of hyperthyroidism; E, funnel plot of hyperthyroidism; F, leave-one-out plot of hyperthyroidism. IMID, Immune-mediated inflammatory disorders; MR, Mendelian randomization; SNP, Single nucleotide polymorphism; SLE, Systemic lupus erythematosus.
