

COMITE DE PROTECTION DES PERSONNES EST I

*FACULTE DE MEDECINE
BP 87900
21079 DIJON CEDEX*

Dijon, June 27th 2025

Dear Sir,

According to French legislation, Committees for the Protection of Persons participating in clinical research are responsible for approving research studies.

Study entitled “ **Postoperative Pulmonary Complications and Response to Recruitment Maneuvers during Hypoxemia in One Lung Ventilation** ” was performed in accordance with the principles of good clinical practice and the need for Ethics Committee approval was waived.

Patients were informed and consented to their participation in this study.

A favorable opinion was given to this study.

Yours faithfully,

Président
Pr Jean-Pierre Quenot
