

Supplementary File - Survey Draft

Community Paramedicine Survey

Thank you for accessing our survey on community paramedicine. Researchers from the Department of Family Medicine at McMaster University are inviting you to participate in a study on Community Paramedicine. The goal of the study is to understand the current perceptions and experiences of paramedics with respect to the Community Paramedic role. The survey will inform future Community Paramedicine programs and research. All information provided is anonymous, will be kept confidential, and is for research purposes only. Individual responses will not be shared with your paramedic service.

1. Have you ever worked in a community paramedic role (e.g. CHAP-EMS, EPIC, home-visits)?
☐ Yes
☐ No

The following questions appear if the above answer is yes.

2. What was your opinion of community paramedicine before working a community paramedicine role?
<open ended text-box>
3. Please explain how your opinion of community paramedicine has changed since working in a community paramedic role?
<open ended text-box>
4. What was positive about your experience working in a community paramedic role? What did you enjoy about this role?
<open ended text-box>
5. What were the negative aspects in your experience working as a community paramedic?
<open ended text-box>
6. Would you like to change anything about the community paramedic role?
<open ended text-box>

In order to better understand what opinions and voices have been represented, it's important that we know some general information about you:
