

Figures, tables and additional files

Practice category	Definition/key characteristics
Solo	Single-physician practices, operating independently or located within a polyclinic setting.
Group	Practices with two or more GPs, including both formally integrated team practices and practices sharing premises without full organisational integration.
Network-based	Practices operating as part of a provider network or chain with shared ownership or management structures.
Employed GPs	GPs working under an employment contract within hospital outpatient departments.

Supplementary Figure S1 Organisational models of general practice included in the analysis

Region	CT (days)	MRI (days)
Hradec Králové	35.9	55.1
Pardubice	35.8	55.5
Olomouc	35.5	54.7
South Moravian	34.9	54.7
Karlovy Vary	34.9	56.7
Liberec	34.9	55.5
Central Bohemian	34.9	54.6
Ústí nad Labem	34.9	54.4
Zlín	34.9	56.3
South Bohemian	34.8	54.7
Vysočina	34.8	55.3
Capital City of Prague	34.7	54.2
Plzeň	34.7	56.1
Moravian-Silesian	34.6	54.6
