

Supplementary figure

A

(A) This figure shows the full image of IL-10 and β -actin. The protein expressions of IL-10 and β -actin were tested by Western blotting in miRNA-374b-5p mimic- and inhibitor-transfected $CD4^+$ T cells compared to *NC-transfected cells*.

B

(B) This figure shows the full image of JAK1 and β -actin. The protein expressions of JAK1 and β -actin were tested by Western blotting in miRNA-374b-5p mimic- and inhibitor-transfected $CD4^+$ T cells

compared to *NC-transfected cells*.

C

(C) This figure shows the full image of p-STAT3, STAT3 and β-actin. The protein expressions of p-STAT3, STAT3 and β-actin were tested by Western blotting in miRNA-374b-5p mimic- and inhibitor-transfected CD4⁺ T cells compared to *NC-transfected cells*.
