

Appendix 1: Good Reporting of a mixed methods study (GRAMMS)

O'Cathain A, Murphy E, Nicholl J. The quality of mixed methods studies in health services research. J Health Serv Res Policy. 2008;13(2):92-98.

Guideline	Section: page
Describe the justification for using a mixed methods approach to the research question	Design: p.7 Strengths and limitations: p.34-36
Describe the design in terms of the purpose, priority and sequence of methods	Design: p.7
Describe each method in terms of sampling, data collection and analysis	Data collection: p.10 Data analysis: p.10-11
Describe where integration has occurred, how it has occurred and who has participated in it	Design: p.7-8
Describe any limitation of one method associated with the present of the other method	Strengths and limitations: p.34-36
Describe any insights gained from mixing or integrating methods	Discussion: p.30-33, Clinical implications and directions for future research: p.34 Strengths and limitations: p.34-36
