RE: Research studies titled, *Patients Experiences of Early Postoperative Cognition (COME) and Evaluation of a digital, self-administered, neurocognitive test battery in older adult patients undergoing abdominal surgery – a non-randomized feasibility trial*

Dear Dr. Nilsson:

This letter is to confirm receipt of payment for your unauthorized use of an unauthorized version of the Swedish MMSE in the research studies referenced above (Invoice IN-00445196).

Also by way of this letter, you may use the data obtained from said research to publish the results of these studies, subject to the following conditions:

- 1) The publication(s) **must not include** any test items from the unauthorized version of the Swedish MMSE that was used without permission, or any other version of the MMSE in any language.
- 2) The publication(s) **must include** this statement:

An unauthorized version of the Swedish MMSE was used by the study team without permission, however this has now been rectified with PAR. The MMSE is a copyrighted instrument and may not be used or reproduced in whole or in part, in any form or language, or by any means without written permission of PAR (www.parinc.com).

- 3) One (1) copy of each article must be sent via email to PAR to confirm that the above conditions have been met.
Email: vmark@parinc.com

If you have any questions or concerns, please do not hesitate to contact me directly.

Sincerely,

Vicki M. McFadden
Sr. Permissions Specialist
