

Supplementary Appendix B. List of Acronyms

CGA:	Comprehensive Geriatric Assessment
CFS:	Clinical Frailty Scale
EHR / EMR:	Electronic Health Records / Electronic Medical Records
eFI:	electronic Frailty Index
FI-CGA:	Frailty Index based on CGA
eFI-CGA:	electronic FI-CGA
GM:	Geriatrician
PCP:	Primary Care Providers
Fraser Health:	Fraser Health Authority
NS Health:	Nova Scotia Health
CARES:	Community Action and Resources Empowering Seniors Initiative
CIHR:	Canadian Institutes of Health Research
DERS:	Departments of Evaluation and Research Services
GMRU:	Geriatric Medicine Research Unit
REB:	Research Ethics Board
NCI:	No Cognitive Impairment
MCI:	Mild Cognitive Impairment
Mini-Cog:	Mini-Cog test for fast cognitive screening
MoCA:	Montreal Cognitive Assessment
FAST:	Functional Assessment Staging Test
BL:	Baseline
FL:	Follow-up
ANOVA:	Analysis of Variance
AUC:	Area Under the Curve
CI:	95% Confidence Intervals
EFA:	Exploratory Factor Analysis

ES:	Effect Size
HR:	Hazard Ratio
KM:	Kaplan–Meier curve
K-S:	Kolmogorov–Smirnov test
ICC:	Intraclass Correlation Coefficient
IQR:	Inter Quartile Range
LL:	log likelihood
ROC:	Receiver Operating Characteristic
sd:	standard deviations
B :	beta parameter
n :	number of complete cases
p / Sig :	level of significance
pt:	point
r :	correlation coefficient
SE:	standard error
Z:	z-test
