INTRODUCTION ET CONSENT

Hello, my name is _____. I am working on behalf of the Health Component of the Singrobo-Ahouaty Hydroelectric Development Project. We are currently conducting a study to assess the current situation of onchocerciasis (river blindness) in the villages located within the area of the Singrobo-Ahouaty dam during the construction phase. In this regard, we would like to exchange with you about health aspects. The interview will focus on Onchocerciasis in order to evaluate your knowledge and attitudes towards this water-related disease.

You will not be exposed to any risk by participating in this study. All the information you provide will remain strictly confidential and will be used solely for scientific purposes. Your participation is entirely voluntary, and we are thankful for your contribution to the success of this study.
