

Additional File 7: Health care provider knowledge of clinical protocols for postpartum

Differences in scores by domain across desired improvements

		Assessment	Prevention	Management
More support from supervisors				
Yes	N=121	0.81 (0.12)	0.73 (0.13)	0.77 (0.15)
No	N=43	0.81 (0.11)	0.67 (0.12)	0.69 (0.16)
<i>p-value</i>		0.77	0.022	0.001
Improvements in knowledge updates/training				
Yes	N=163	0.81 (0.12)	0.71 (0.13)	0.76 (0.15)
No	N=7	0.84 (0.07)	0.67 (0.12)	0.65 (0.15)
<i>p-value</i>		0.46	0.37	0.086

Notes: This table shows the average scores of providers by domain across whether they would like to see specified improvements at their respective facilities or not. P-values are from the normal distribution for differences across categories based on the continuous score value.
