

The Mobile Application Assessment Form (MAAF)

Dear Mother,

First of all, we would like to thank you for your valuable contribution to this research. Your evaluation of the usability of the “My Breastfeeding Guide” Mobile Nursing Application, which is used in this study, is of great importance for both the researcher and the research itself.

Below, you will find statements related to the evaluation of the “My Breastfeeding Guide” Mobile Nursing Application. You are kindly asked to respond in a way that best reflects your opinion.

Thank you for taking the time to participate.

Statements	Agree	Neutral	Disagree
1. Appropriate design elements (visuals, colors, fonts) have been used in the mobile application.			
2. The content of the mobile application has been prepared in accordance with the purpose of the topic.			
3. Simple and easy-to-use commands have been used in the mobile application.			
4. The mobile application includes menus and headings that guide the user.			
5. Smooth transitions between screens have been ensured in the mobile application.			
6. The mobile application can be easily opened with an icon.			
7. The mobile application provides multi-platform support (Android, iOS).			
8. I am satisfied with using the mobile application.			
9. The mobile application includes all the information I need about breastfeeding.			

10. I would recommend the mobile application to pregnant and breastfeeding mothers.
