

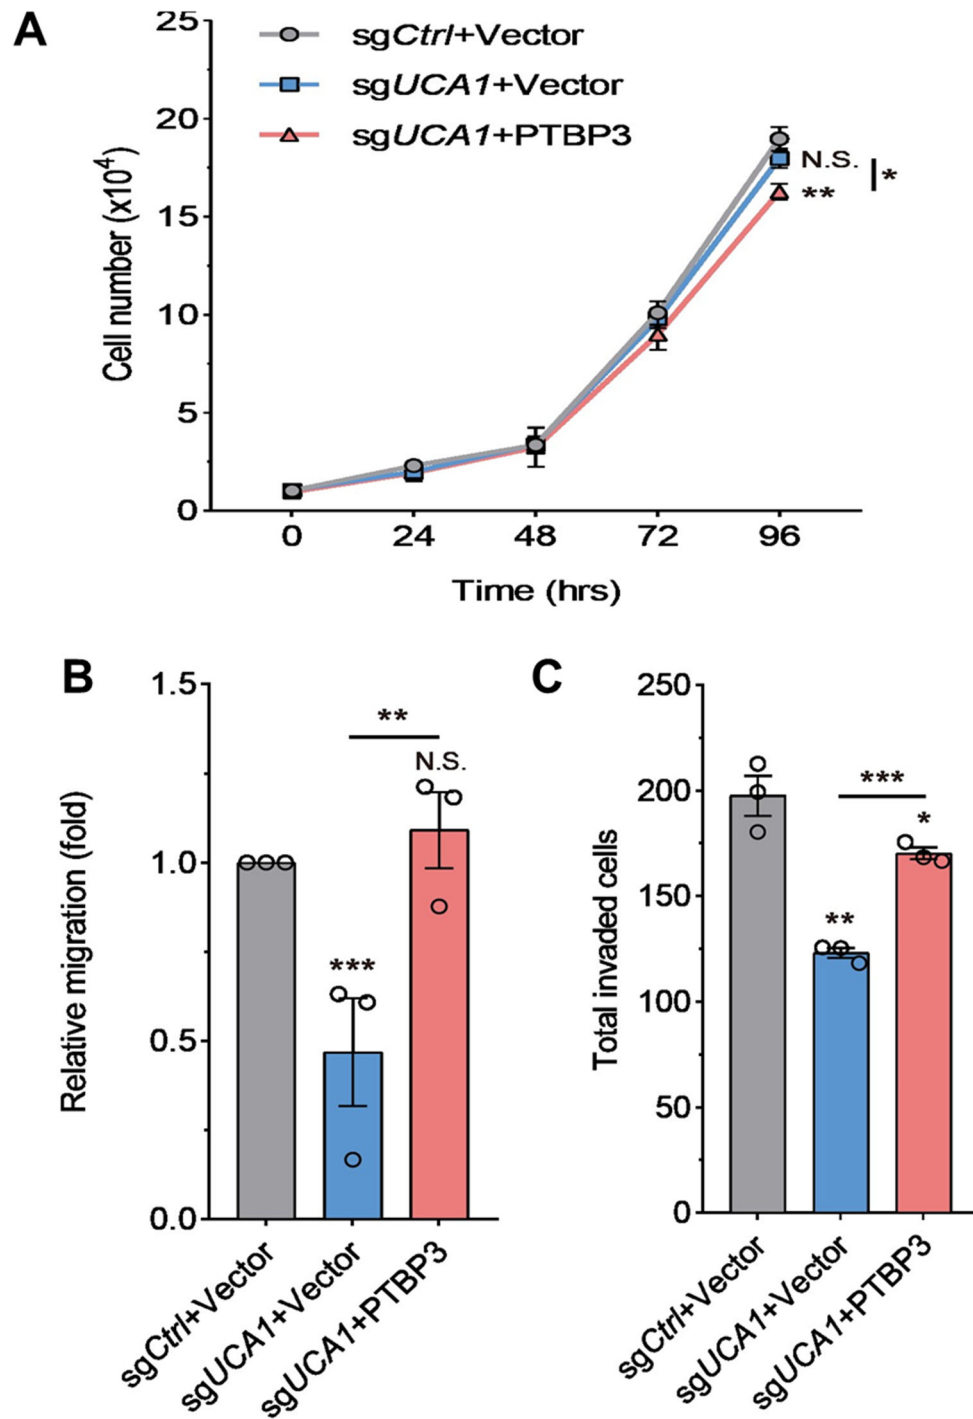

Fig. S5. Ectopic PTBP3 overexpression rescues *UCA1*-mediated suppression of cell migration and invasion.

The effect of *PTBP3* overexpression on *UCA1*-depleted Detroit 562 cell proliferation (A), migration (B) and invasion (C). All the experiments were independently repeated three times

and expressed as mean $\pm$ SD (N = 3). *p < 0.05, ** p < 0.01, *** p < 0.001 or not significant (N.S.) compared to sgCtrl + Vector cells, t-test.
