Supplementary File 2. Uncropped western blot images corresponding to Figure 4 of the main manuscript

This file presents the original uncropped blots corresponding to the cropped panels shown in Figure 4 of the main manuscript. Lane 1 corresponds to the Mock (empty vector) condition, and Lane 2 to MEF2C overexpression (Over). Molecular weight markers are included for reference.

Original image	Address in main text
Sub-File A, lanes 1–2	Original uncropped image of Figure 4A (MEF2C)
Sub-File B, lanes 1–2	Original uncropped image of Figure 4A (GAPDH)
Sub- File C, lanes 1–2	Original uncropped image of Figure 4A (Cas 3 / Cleaved Cas3)
Sub- File D, lanes 1–2	Original uncropped image of Figure 4B (Nur77)
Sub- File E, lanes 1–2	Original uncropped image of Figure 4B (Cas9 47 KD/ Cas9 37 KD)
Sub- File F, lanes 1–2	Original uncropped image of Figure 4B (B-act)
