

# Age, Gender, Educational Level

## Supplementary Material

Mieth, Mayer, Hoffmann, Buchner, & Bell: “Do they really wash their hands? Prevalence estimates for personal hygiene behaviour during the COVID-19 pandemic based on indirect questions“

The following table contains information on age, gender and educational level separately for the three groups (Direct Question, Extended Crosswise Model 1, Extended Crosswise Model 2).

|                                      | Direct<br>Question | Extended<br>Crosswise Model<br>1 | Extended<br>Crosswise Model<br>2 |
|--------------------------------------|--------------------|----------------------------------|----------------------------------|
| Age                                  |                    |                                  |                                  |
| <i>M (SD)</i>                        | 34 (15)            | 36 (15)                          | 35 (16)                          |
| Gender                               |                    |                                  |                                  |
| Female                               | 67 %               | 67 %                             | 67 %                             |
| Male                                 | 33 %               | 33 %                             | 32 %                             |
| Diverse                              | < 1 %              | < 1%                             | < 1 %                            |
| Highest Educational Level            |                    |                                  |                                  |
| University Degree                    | 51 %               | 54 %                             | 48 %                             |
| University Entrance<br>Qualification | 43 %               | 37 %                             | 40 %                             |
| Lower Secondary<br>School Education  | 7 %                | 9 %                              | 12 %                             |
| No Formal School<br>Education        | 0                  | 0                                | < 1 %                            |
