

**Semi structured questionnaire checklists for identifying the factors the causes the post-
COVID-19 emergence food security crisis.**

1. Do you think that there was a difference in consumers' buying behaviour before and after the emergence of COVID-19?
2. Do you think COVID-19 impacted the food supply chain - either negatively and/or positively?
3. If yes, what might be factors/causes for any of the changes in the food supply chain?
4. Please share these 100 beans for the factors/causes of food supply chain disturbance.

NB. The most important factor/cause will get more beans.
