**QUESTIONNAIRE**

**1. Awareness**

- Have you heard about the Transformation of Primary Health Services (PHCI)? Where did you get the information from?
- Before PHCI was implemented, what activities were conducted at the Health Post to improve public health?
- Has there been any communication from the City Health Office to the health workers at the Community Health Centers (CHC) regarding PHCI?
- Do you think everyone at the Health Post is aware of PHCI? How do you know?
- Do you know why PHCI is necessary?

**2. Comprehension**

- What is your opinion about the proposed changes in PHCI?
- Can you briefly explain the concept of PHCI at the Health Post?
- How do you think the health cadres at the Health Post understand PHCI?
- Have there been any difficulties in understanding PHCI?

**3. Concern**

- How important do you think PHCI is?
- Do you feel that PHCI will significantly benefit the community?
- How do you ensure the health cadres at the Health Post are also concerned and supportive of PHCI?

- Do you have any concerns regarding the implementation of PHCI at the Health Post?

#### **4. Involvement**

- Are you involved in the planning and implementation of PHCI at the Health Post? If so, what is your role in this process?
- How do you involve everyone at the Health Post to implement PHCI?
- To what extent have you been actively involved in the change process at the Health Post since PHCI was introduced?

#### **5. Support**

- What have you done to support the PHCI plan at the Health Post?
- What is your view on the support provided by the City Health Office in supporting PHCI at the Health Post?
- Do you think the support provided is sufficient?

#### **6. Supporting and Inhibiting Factors**

- From your experience, what factors have been most helpful in the implementation of PHCI at the Health Post?
- Have you received any support or assistance from other parties to help implement PHCI at the Health Post?
- What are the main obstacles you have encountered in implementing PHCI at the Health Post?
- How have you or your team responded to these obstacles to ensure the smooth implementation of PHCI at the Health Post?
