

Supplementary Figure 2. Age, period, and cohort effects on the mortality of GBTC in China. (A) Age-specific mortality due to GBTC according to time periods; each line connects the age-specific mortality for a 5-year period. (B) Age-specific mortality of GBTC according to birth cohort; each line connects the age-specific mortality for a 5-year cohort. (C) Period-specific mortality of GBTC according to age groups; each line connects the birth cohort-specific mortality for a 5-year age group. (D) Birth cohort specific mortality of GBTC according to age groups; each line connects the birth cohort-specific mortality for a 5-year age group. Abbreviations: GBTC, gallbladder and biliary tract cancer.
