QUOTE: REC	8 (42%)	7 (44%)	15 (43%)
QUOTE: UNIQUE	8 (42%)	8 (50%)	16 (46%)
¹ An interview transcript analysis was included in the count if the code of interest had been utilized at least once after completion of final coding. ² Refer to Additional file 5 for descriptions of each code. ³ All data representing percentages greater than or equal to 75 are highlighted in bold to recognize common topics that played a larger role in informing subthemes, themes, and representative quote selection to unpack the heterogenous experiences of all PEH.
